Primary phone +243 992 749 668

Other phone +243 860 392 283

Address Kinshasa, Com. Limité Q. Kingabwa Av. Lobo N° 27

Nationality Congolese

PROFILE

Telecommunications engineer with strong expertise in network administration, information security, maintenance, web development and technical support. Motivated, rigorous and solution-oriented, I adapt quickly to demanding professional environments. I want to put my skills at the service of a dynamic organization while developing new technical and professional abilities.

I graduated in telecommunications engineering and management from Hope Africa University (Burundi, 2020–2022), with distinction, concentration in systems and network security. I also completed network architecture and CCNA, software maintenance and office tools, and a technical diploma in general agriculture from Idjwi.

SKILLS

Networks & security. Network administration (Advanced expertise), Information security (Advanced expertise), Network protocols (Professional command), Network troubleshooting (Professional command)

IT support & maintenance. Technical support (Advanced expertise), IT maintenance (Advanced expertise), Incident management (Professional command), Installation and configuration (Professional command)

Web development. Web development (Advanced expertise), HTML (Professional command), CSS (Professional command), PHP (Professional command)

Surveillance systems. Camera installation (Professional command), Cabling (Professional command), Security systems (Professional command)

Office tools. Excel (Strong command), Word (Professional command), PowerPoint (Professional command)

Cisco & networking. Cisco configuration (Professional command), Cisco troubleshooting (Professional command)

PROFESSIONAL EXPERIENCE
